

SPB Energy Solutions is a reputable electrical contractor dedicated to delivering high-quality electrical, solar, and sustainable energy solutions across domestic, commercial, and industrial sectors. Our experienced team specialises in tailored installations, proactive maintenance, and innovative energy solutions including solar power, battery storage, electric vehicle (EV) charging, heat pumps, and air conditioning systems.

Our directors, **Ricky Francis and Paul Foster**, collectively bring over 30 years of experience in electrical services, mining, hazardous areas, solar installations, instrumentation, data, and oil and gas industries. Their extensive industry knowledge and hands-on expertise underpin every project, ensuring superior outcomes across domestic, commercial, and industrial domains.

VALUES

TRUST

We build lasting relationships through honesty, transparency, and integrity.

RESPECT

We treat every client's property and project as if it were our own, upholding the highest standards of care and precision.

DEPENDABILITY

We consistently deliver reliable, high-quality services, always meeting our commitments.

INNOVATION

We continuously adopt and implement cutting-edge technology to deliver efficient, sustainable solutions.

VISION

SPB Energy Solutions aims to be recognised as a leader in innovative electrical and renewable energy services, celebrated for our reliability, quality craftsmanship, and unwavering commitment to customer satisfaction and sustainability. We envision a future where clean, efficient energy solutions significantly enhance lives and preserve the environment for future generations.

PURPOSE

Our mission at SPB Energy Solutions is to empower individuals, businesses, and communities through reliable, sustainable electrical and renewable energy solutions. We commit to exceptional quality, safety, and customer satisfaction, fostering environmental responsibility and contributing positively to a cleaner, more sustainable future.

PRODUCTS & SERVICES

Electrical Installations

Safe, compliant, and future-proof electrical systems tailored to individual client needs.

Solar Energy Solutions

Custom-designed solar installations utilising cutting-edge technology to maximise energy efficiency and savings.

Battery Storage Systems

Reliable battery solutions for energy independence and backup power.

Electric Vehicle Charging Stations

Comprehensive EV charging infrastructure for homes and businesses.

Heat Pumps and Air Conditioning

Efficient heat pumps and air conditioning systems (up to 18kW) for residential, commercial, and industrial applications.

Fault Finding and Rectification

Prompt and professional troubleshooting and repair of electrical issues.

Preventative and Reactive Maintenance

Scheduled and on-demand maintenance services ensuring optimal performance and safety.

MAJOR CLIENTS

OUR COMMITMENTS

SPB Energy Solutions actively champions diversity, inclusion, and community engagement. We support educational initiatives and training programmes aimed at developing expertise in electrical and renewable energy technologies. Our commitment to ethical sourcing, sustainable practices, and reducing environmental impact underscores our goal to make renewable energy accessible to all communities.

- **Accreditation:** Clean Energy Council, Solar Accreditation Australia
- **Quality:** NECA, Clean energy council, Work to Australian electrical standards as a minimum

CASE STUDIES

VANESSA BEKINS - ACTON I BELLE PROPERTY MANDURAH

SPB Energy Solutions partners with Team Vanessa Bekins - Acton I Belle Property Mandurah, providing comprehensive pre and post-sale electrical and solar safety inspections. This collaboration ensures seamless property transactions through detailed compliance checks, prompt rectifications, and issuing Electrical Safety Certificates, significantly enhancing transaction efficiency, buyer confidence, and market reputation.

"SPB Energy Solutions has been a game-changer for my real estate transactions. Their professionalism, reliability, and cost-effective solutions make them our go-to electrical and solar inspection provider. Thanks to their work, I can confidently present properties to buyers and do key handovers, knowing they are safe, functional, and fully compliant."

Vanessa Bekins, Acton I Belle Property Mandurah

PEEL CABINETS PARTNERSHIP

SPB Energy Solutions has provided Peel Cabinets, a specialist in bespoke kitchens and cabinetry, with crucial electrical safety assessments, custom electrical installations, and proactive fault management. This partnership has resulted in enhanced safety, reduced project downtime, and improved customer satisfaction.

HUNSA MEATS SOLAR REPAIR

SPB Energy Solutions successfully resolved significant solar installation issues previously created by substandard workmanship from another provider. Our tailored solution enhanced the safety, reliability, and efficiency of the client's solar infrastructure, significantly improving operational stability.

ACCESSIBLE ENERGY

At SPB Energy Solutions, reliability and trust define our service. We guarantee exceptional workmanship and transparent communication, making renewable energy and essential electrical services accessible, understandable, and affordable. Our steadfast commitment to customer satisfaction and ethical practices distinguishes us from competitors, ensuring we exceed client expectations at every opportunity.

INNOVATIVE SERVICES

SPB Energy Solutions provides exceptional value through innovative electrical and renewable energy services tailored precisely to our clients' needs. Our commitment to quality ensures dependable, cost-effective solutions, enhancing energy efficiency and promoting sustainability. We pride ourselves on a customer-focused approach, ensuring clarity, confidence, and satisfaction from initial consultation through project completion and beyond.

OUR TEAM

RICKY FRANCIS

Director

20 Years electrical, hazardous areas, instrumentation, data, mining, oil and gas, solar and batteries

PAUL FOSTER

Director

10 Years electrical, Data, mining, solar and batteries
